

aspenONE[®] Engineering Desktop

Now bring the power of our full engineering suite—right to your desktop—in one convenient, cost-effective package!

aspenONE Engineering Desktop bundles the same comprehensive, industry-leading conceptual design and optimization software used by the world's largest process manufacturers into a more affordable solution for small to medium-sized enterprises (SMEs) on one desktop.

||||||| Easy to Purchase, Easy to Use

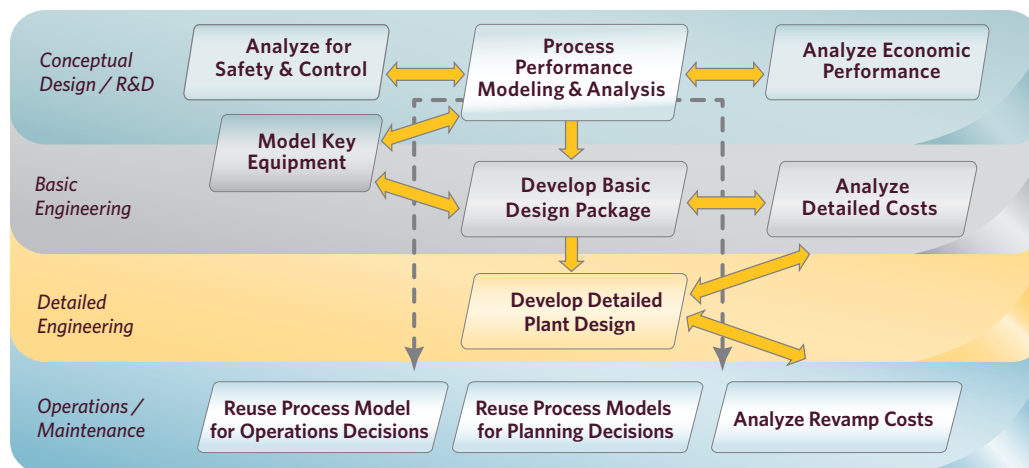

You can order this all-inclusive package direct from AspenTech, containing everything you need to deploy the full suite of aspenONE Engineering products on an individual desktop. The single-license bundle includes:

- **Complete access** to process simulation products for energy and chemicals, model deployment products, exchanger design & rating products, economic evaluation products, and more (see full list on other side)
- Ability to **view and use multiple products** concurrently for fast comparison of different scenarios on the desktop
- **Integrated capabilities** with no usage restrictions on the desktop (e.g., estimate relative costs as part of an energy analysis)
- **Layered applications and advanced optimization products**—same tools used by larger engineering teams
- Full access to **product upgrades, patches, and new features** as they become available

||||||| Online Training and Support Built Right In!

In addition to empowering you and your team with the full suite of aspenONE Engineering products, this special package also comes with the following value-add features:

- **Online Training**—Get up to speed quicker with access to animated tutorials and other training materials—right from within select products. Take advantage of all the advanced capabilities of this innovative software in less time.
- **AspenTech Premier Plus Support**—As an AspenTech customer, you'll have access to our award-winning global technical support, including our robust, content-rich online support center.

The scope of aspenONE Engineering.

||| aspenONE Engineering Desktop

Here's the complete list of everything that's included with the aspenONE Engineering Desktop package:

Process Simulation - General (Common to Chemicals, Refining, EP, and Midstream)

- Aspen Properties®
- Aspen Custom Modeler®
- Aspen Flare System Analyzer
- Aspen Energy Analyzer

Process Simulation - Chemicals

- Aspen Plus®*
- Aspen Plus Dynamics
- Aspen Rate-Based Distillation
- Aspen Polymers
- Aspen Adsorption
- Aspen Distillation Synthesis

Process Simulation - Energy (Common to both Refining and E&P)

- Aspen HYSYS®*
- Aspen HYSYS Crude
- Aspen HYSYS Amines
- Aspen HYSYS Dynamics
- Aspen HYSYS Dynamics Run-Time
- Aspen HYSYS Thermodynamics COM Interface
- Aspen EO Modeling Option

Process Simulation - Refining

- Aspen HYSYS Petroleum Refining
- Aspen HYSYS Reformer
- Aspen HYSYS Hydrocracker
- Aspen HYSYS CatCracker

Process Simulation - E&P

- Aspen HYSYS Upstream
- Aspen HYSYS Upstream Dynamics
- Aspen Conceptual Design Builder

Process Simulation - Batch/Pharma

- Aspen Batch Process Developer (formerly Aspen Batch Plus®)
- Aspen Batch Distillation
- Aspen Chromatography®
- Aspen Process Manual
- Aspen Process Tools

Model Deployment

- Aspen Model Runner
- Aspen Online Deployment
- Aspen Simulation Workbook

Exchanger Design & Rating (EDR)

- Aspen Shell & Tube Exchanger*
- Aspen Shell & Tube Mechanical*
- Aspen Air Cooled Exchanger*
- Aspen Plate Fin Exchanger*
- Aspen Fired Heater*
- Aspen Plate Exchanger*

Economic Evaluation

- Aspen Capital Cost Estimator*
- Aspen In-Plant Cost Estimator*
- Aspen Process Economic Analyzer*

Energy Management

- Aspen Utilities Operations
- Aspen Utilities Planner

Engineering Work Group Tools

- Aspen Search
- Aspen Basic Engineering*

About AspenTech

AspenTech is a leading supplier of software that optimizes process manufacturing—for energy, chemicals, pharmaceuticals, engineering and construction, and other industries that manufacture and produce products from a chemical process. With integrated aspenONE® solutions, process manufacturers can implement best practices for optimizing their engineering, manufacturing, and supply chain operations. As a result, AspenTech customers are better able to increase capacity, improve margins, reduce costs, and become more energy efficient. To see how the world's leading process manufacturers rely on AspenTech to achieve their operational excellence goals, visit www.aspentech.com.
